OBJECTIVE

Ongoing software engineering student with passion in developing software. Seeking for an internship to apply skills gained from hackathon projects to real-world problems. Experienced in working individual and with a team across multiple projects.

EDUCATIONAL BACKGROUND

Universiti Putra Malaysia (UPM), Selangor   **(Oct 2023–July 2027)**

Bachelor of Software Engineering (Honours)

Current CGPA: 3.96

Universiti Teknologi Mara (UiTM Dengkil), Selangor   **(Aug 2022–June 2023)**

Foundation in Engineering

CGPA: 4.00

ACHIEVEMENTS

Dean's List Award (achieved more than 3.75 GPA)   **(2024, 2025)**

Achieved in B.Sc. Software Engineering (Semester 1, 2, and 3).

Vice Chancellor's Award (achieved 4.00 GPA)   **(2023, 2025)**

Achieved in Foundation in Engineering and B.Sc. Software Engineering (Semester 4).

FoSEAL Hackathon   **(June 2025)**

Secured 2nd Runner Up by developing a smart agriculture app for maize farmers with features such as soil monitoring and AI-powered pest detection.

PayNet Hackathon   **(June 2025)**

Reached Semi-Final with a fintech payment solution prototype.

FCSIT Hackathon   **(July 2025)**

Ranked Top 5 by designing a mobile app for chili farmers to enhance farming efficiency.

SKILLS

Programming: Java, C, SQL (MySQL), Dart, HTML, CSS, Javascript

Frameworks: Laravel, Flutter, React, Node JS

Tools: GitHub, VS Code, Figma, Android Studio, Firebase

Language: Bahasa Malaysia (Native), English (Intermediate), Arabic (Beginner)
